[SPECIAL FEATURE] My Winter Horror

This time, around it's about my fear that comes with winter...Well then...what's the problem. Truthfully, winter is my favorite season. Why? Because for me, winter is the best time of year. First of all, sake tastes so much better. Served with hot tofu or hot pot dishes, it's like heaven on earth. And when the snow starts to fall, I'm so happy that I run around outside like an excited dog. The cold wind that whistles and pierces my body feels so pleasant. The crisp, clear air tightens my body, and before I know it, I find myself pulling out my beloved sword to admire it... Basically, I love the cold but hate the heat. When I'm indoors, I wear the same work clothes for every season.

VOICE

♥ It was a bit disappointing that "Hyde-kun" didn't appear this time around. I was really looking forward to it. But it was still really good! Please keep up the great work.

—M-san, Miyagi Prefecture

♥ The cover illustration by Ochazukunori really stood out. I'd love to see extras like stickers or cards included inside.

—A.K-san, Yamagata Prefecture

♥ There were stories that were scary, but it also has one's that had me bursting out laughing. I think that sense of balance is excellent. And the high-quality covers give a sense of luxury. I love "All Kaidan," and this is definitely the way to go. I'm looking forward to more.

—Y.K-san, Yamanashi Prefecture

♥ Ochazukunori's original yokai drawings are so unique and cool. I hope to see 200 of them!

—A.K-san, Tokyo

♥ It wasn't really all that scary, but it was really entertaining. I ended up reading it many times over and over. I'd like it if the stories were just a bit scarier, though.

—M.A-san, Shiga Prefecture

♥ Me and my mother both love horror manga. That's why we always look forward to the next release day of "All Kaidan." We've been buying it since issue #1, and the dense, thick content makes us very happy.

—R.Y.O-san, Kyoto Prefecture

I spend the summer cooling myself with the air conditioner, while in winter the room is warm, so really it's kind of the same thing. When it's winter, I just put on one more layer of work clothes. In other words, two layers, top and bottom. And indoors, I wear the same clothes as I do in summer. But when others see me, they say it's pretty strange. Come to think of it, in winter I often get asked, "Don't you feel the cold at all?" Well... even in the dead of winter, when I have no choice but to go outside, I wear the same work clothes I wear in summer, with just one more layer on top. If that's considered unusual, well then... I guess what I'm trying to say is, being forced to explain all this is what's truly frightening for me...!!
